Very pleased with the service, from front desk, to dental assistant, and dentist. Incredibly friendly, thorough and polite. Pricing reasonable and helpful to get the best solution for each patient. Looking forward to making this my home dental office and love that each room has a window looking outside where lots of birds and wildlife come through.

I had a procedure a few days ago in this office for the first time. Dr. Frei's staff explained the process well, ensuring I was well informed and comfortable. All staff were professional and answered all of my questions. Everyone made me feel very comfortable and at ease. The tooth extraction was painless. Later the same day, I received a follow-up call from Dr. Frei to ensure everything went well. Overall I had an excellent experience.

I just moved to the area and have been looking for a local Dentist. Read great reviews about this location and decided to give it a try. They took me in on an emergency visit 20 mins after making the call. They were great from start to finish and answered every question I had. This will be my Dentist moving forward no question!

Great family dentist! They took great care of us when we called to make our appointment and even better care of us on our first visit. Highly recommend!

Dr. Frei and his staff were very professional and thorough. His expertise would be able to meet any dental needs that I might have. It's just nice to find a dentist that you can trust to have your best interest at heart! Just experienced the most thorough and painless root canal today that I've ever had in my life. Dr. Frei's expertise is second to none! Thank God I can put my dental worries behind me.

My husband and I are patients. I decided to try our 4 and 2 yr old there (vs the pedi dentist they had gone to). EVERYONE was amazing. My 2 yr old was a bit traumatized at her first pedi dentist visit. Gigi was so patient and kind with her that my daughter even let her try the polisher on her teeth. Kelly and Amanda were just as sweet with them. It was their first "happy visit" so there was a quick pop-in from Dr. Frei. He showed the same patience and kindness as the ladies. See you in 6 months!

Perfect first experience. The office is located in a very nice and scenic areas where you can watch the birds and squirrels play while you are in the chair. The front office was nice and helpful with scheduling the appointment and helping me with the new patient paperwork. The hygienist was very gentle and kind. You could tell she enjoys what she does. Dr. Frei is a great dentist and even better person. He is very friendly and knowledgeable. Not once did I feel like anyone was trying to sell me anything unnecessary. I will certainly be back with the restoration my family.

I am new to the area and have had the same dentist for years so I was a bit apprehensive, but WOW I am blown away with customer service. This group is exceptional and I would highly recommend them to anyone wanting a great dental experience!

I could not have asked for a better experience. The staff is exceptional at their job and had went above and beyond getting me in and scheduled for the extensive care that needed completion before having to leave Texas for Alaska. Dr Frei did an amazing and pain free job with my care and the procedures that I had to have completed. I would recommend this practice to anyone needing dental care and will continue with them for years to come.

We always have a great experience at Dr. Frei's office. The front desk staff as well as the dental hygienists are excellent, professional, and friendly. I have three girls, ages 13, nine, and seven. All three love to go get their teeth cleaned. My oldest had to get a couple of fillings and is extremely afraid of shots. The staff worked really well with us to make both her and myself as comfortable as possible in that situation.
